EXPERIENCE

Paramedic

January 2018 - Present

NBC Universal- Orlando, FL

- Designed and implemented automation solutions in the Hearing Conservation Program leveraging Node.js, integrated with Smartsheet and Power Automate to streamline workflows.
- Developed a real-time dashboard using Node.js, Smartsheet, and SharePoint to help the Medical Surveillance Department manage patient tracking and coordinate DOT testing schedules across Universal Orlando's campuses.
- Designed and deployed a custom database solution to manage patient charts, improving data organization and accessibility.

Graphic Designer

January 2000 - December 2014

CompuGraphic Signs- Moca, Puerto Rico

- Collaborated directly with over 50 small business clients to design logos and complete branding packages aligned with business goals and target audiences, enhancing visibility and consistency across print and digital platforms.
- Delivered professional print and digital assets utilizing Adobe Creative Suite and CorelDRAW, building a foundation in visual design now applied to web interfaces.

EDUCATION

Bachelor of Science in Web Development (B.S.)

September 2025

Full Sail University, Winter Park FL

Focused on full-stack development using MongoDB, Express, React, Node.js.

Completed projects involving responsive design, RESTful APIs, authentication, and deployment.

Doctorate in Medicine

December 2016

University of Science Arts and Technology, Alveston, Montserrat.

Completed a rigorous, clinically focused program emphasizing critical thinking, documentation, and interdisciplinary communication, skills highly applicable to tech and development roles.
